## Market Comment

The General Index ended Friday up 0.99%, constantly registering mixed signs. Index seems to be holding 2,000mark. Total turnover at 221.16m euros.

Financials ended up 2.47%. NBG added 4.53% with good volume. Ellaktor (+4.21%), OPAP (+2.61%), Piraeus Bank (+1.75%), and PPC (+1.71%), Eurobank advanced 1.26%.

10-yr GGB-bund spread yields hit fresh high on Friday as they widened to 313 bps.

Much depends on the outcome of bond issue this week. Focus remains on bond spreads and CDS.

## Greek Macro

The Greek government said Friday that it plans to syndicate a five-year benchmark bond this week as it moves to address market jitters over its ability to finance its budget deficit. The bond, will raise between €3 billion and €5 billion.

Greece has yet to choose the financial institutions that will manage the planned bond sale, he said.

The government has no immediate plans to sell debt through private placements, Papanicolaou said in an interview. In such transactions, issuers offer securities directly to chosen investors rather than sell them through an auction or via a bank syndicate, reducing the risk that inadequate demand will drive up borrowing costs.

Greek Indices	Value	Chg: %	30 days %	YTD %
